## SM57 Instrument Microphone

The legendary Shure SM57 microphone is exceptional for musical instrument pickup and vocals. With its bright, clean sound and contoured frequency response, the SM57 is ideal for live sound reinforcement and recording. It has an extremely effective cardioid pickup pattern which isolates the main sound source while minimizing background noise. In the studio, it is excellent for recording drums, guitar, and woodwinds.

The SM57's outstanding performance, legendary reliability, and diversity of application make this "workhorse" the choice of performers, producers, and sound engineers worldwide.

**SM57-LC** : Without Cable

**SM57-LCE** : Without Cable, with 5/8-inch to 3/8-inch thread adapter for mounting on European stands
