UR2/BETA87C with Beta 87C Cardioid Microphone

UHF-R Wireless Handheld Transmitter with Beta 87C Cardioid Microphone.

[view larger](#)[print page](#)[Features](#)[Specifications](#)[Accessories](#)[User Guides](#)

Beta87C Vocal Microphone

The Beta 87C offers an extremely smooth, tailored response for a warm, natural sound. The cardioid polar pattern compensates for the isolation often associated with the use of personal monitors.

- Cardioid, Condenser
- Frequency response: 50 to 20,000 Hz
- Highly consistent cardioid pattern offers excellent rear rejection

UR2 Handheld Transmitter

- RF Carrier Frequency Range: 518 – 865 MHz
- Switchable RF Power (10/50 mW), country dependent
- Battery Life: 8 hours (10 mW setting)
